Notes

- With the exception of December and January, updates are delivered to the campus community on the 3rd Friday of each month.
- Updates are not delivered the week before finals week, the week of finals week, or the Monday or Tuesday following finals week in both fall and spring semesters.
- Updates are not delivered the first week of classes in fall, spring, or summer semesters.
- Because four week summer sessions are compressed, only one week is allotted for finals week, so updates are deployed during the 3rd week in both June and July of all years.
- Because of finals week and the December holiday, December updates are delivered on the first Friday in January. If this date is a holiday, updates will be delivered the following Monday.
- Because classes resume in the 3rd week of January, January updates are delivered on the last Friday of January.
- Because out-of-cycle patches happen infrequently and represent solutions to critical issues, out-of-cycle patches will be communicated and delivered as soon as possible to the campus community.
