

823 E. Monroe St. • Springfield, IL 62701-1915

**Memorandum**

**To:** CFC Managers, EI Providers

**From:** Amy Tarr, Chief of Bureau of Early Intervention

**Re:** Social or Emotional Developmental Domain

**Date:** February 26, 2013

---

As you know, it had been the practice in Illinois Early Intervention to require the CFC offices to contact the Bureau to acquire approval before conducting a social or emotional evaluation during the eligibility evaluation period, when the social emotional evaluation was one of the two evaluations to determine eligibility based upon a developmental delay. As is consistent with the current CFC Procedure Manual, this approval is no longer required. As always, children may be found eligible for Early Intervention based solely on a delay in the social or emotional developmental domain.
