## Goldfarb announces retirement

President **Al Goldfarb** has announced he will accept a final two-year contract and retire June 30, 2011.

Western's 10th president, Goldfarb officially took office July 1, 2002 following 25 years of distinguished service at

Illinois State University, where he had served as provost and academic vice president since 1998. A professor of theatre, Goldfarb continues to teach theatre history and take community members on trips to the theatre in his native New York City.

While my tenure will end in two years, there are numerous tasks I want to accomplish in that time, Goldfarb noted.

See "Goldfarb," p.3

## BOT approves cost increases for new students, athletic team changes

The Western Illinois University Board of Trustees approved at its June 5 meeting a 7.2 percent increase in all costs (tuition, fees and room and board) for students entering the University in Fall 2009.

Undergraduate students entering Western in Fall 2009 will be charged \$6,778.80 in annual tuition, based on 15 hours per semester at a \$225.96 per semester hour rate. The tuition rate is \$215.20 per semester hour for students who entered in Fall 2008, \$196.50 per semester hour for students who entered in Fall 2007 and \$181.30 per semester hour for students who entered Fall 2006. Graduate tuition for students entering in Fall 2009 will be \$249.21 per semester hour compared to \$237.34 for graduate students who entered in Fall 2008.

Yearly room and board increases for entering students will be \$432 more per year for double occupancy (\$7,642 compared to \$7,210 for Fall 2008) and \$766 more per year for single occupancy (\$9,716 compared to \$8,950 for Fall 2008). Fees for incoming Western-Macomb students will increase by \$362.10 per year for students

with a 15-hour schedule per semester (\$2,178.60 per year in Fall 2008 and \$1,816.50 in Fall 2008). The fee schedule for new WIU-Quad Cities students with a 15-hour schedule per semester will remain the same as the Fall 2008 fees of \$534.90.

The increase, which is less than 2 percent per year, maintains Western's tradition of, and commitment to, access, affordability and quality. I'm pleased that of the 12 Illinois public institutions, Western is one of four in the state with the most affordable tuition and fees, while providing nationally recognized, high-quality academic programs, said President **Al Goldfarb**. Western remains one of the only universities in the state that includes room and board in our cost guarantee. Students entering Western this fall will not face another cost increase in tuition, fees or room and board during their continuous enrollment at WIU.

In addition, the board approved granting in-state tuition and fees to students residing in Missouri, Iowa and Wisconsin, beginning Fall 2009.

See "Board," p.2

# School of Engineering director named

**William Pratt**, director of the Utah Science Technology and Research (USTAR) program for the Southern Technology Outreach and Innovation Program, has been named director of Western's new School of Engineering, effective June 8, according to College of Business and Technology Dean **Tom Erikson**.

Pratt had served as director of the USTAR program since 2007. He previously served as associate professor and interim department chair of the integrated engineering and technology department at Southern Utah University (Cedar City, UT), where he helped develop the first integrated engineering program in the U.S. Prior to that, Pratt was chief executive officer and chief scientist for Patterned Fiber Composites, Inc.; an independent engineering and program management consultant, new business development manager and senior program manager for EDO Corporations Acoustic Division; and manufacturing engineer for Morton Thiokol. Pratt owns several U.S. patents and has significant ABET experience.

"We are pleased to have Dr. Pratt join our team. He brings a wealth of experience

to WIU that aligns with our goals in developing the new engineering program and obtaining ABET accreditation," Erikson noted. "His involvement in corporate alliances and economic development are true assets."

Pratt earned his Ph.D. in mechanical engineering and master's in engineering management from Brigham Young University and his bachelor's degree in mechanical engineering from the U.S. Military Academy.

Pratt's office will initially be located at the WIU-Quad Cities 60th Street campus. In August, the School of Engineering will be located in The Caxton Block Building, 1701 River Drive, Moline. In March, Western's Board of Trustees approved a lease agreement with Ruhl & Ruhl Commercial Company to lease The Caxton Block Building to temporarily house the new WIU-Quad Cities engineering program, which begins in Fall 2009.

The Caxton Block Building is close to the WIU-QC Riverfront Campus and is part of the City of Moline's Mississippi River Urban Technology Corridor.

# Martinelli-Fernandez named interim dean

**Susan Martinelli-Fernandez**, associate dean for research, graduate studies, grants and faculty research and development in the College of Arts and Sciences (CAS), has been appointed interim CAS dean, effective July 1, according to WIU Provost and Academic Vice President **Jack Thomas**.

Martinelli-Fernandez has served as associate dean since 2005. She will serve in the interim position until a permanent dean is hired to replace **Inessa Levi**, who accepted a position as provost and vice president for academic affairs at Columbus State University.

Prior to being named associate dean, Martinelli-Fernandez served as a professor in the department of philosophy and religious studies. She has been at Western since 1993.

"Dr. Martinelli-Fernandez has served on numerous University committees and has vast experience in curriculum development, graduate education, grants, Honors programming and personnel," Thomas said. "Her appointment as interim dean provides continuity and strong leadership through this transitional period as the University searches for a new CAS dean."

She has served as the chair and co-organizer of CLASS (Celebrating Liberal Arts and Sciences), a College of Arts and Sciences awareness committee. Under her leadership the group organized, and she moderated, the first panel discussion of the Dialogue series, in which University and community leaders are brought together to discuss democracy and education.

Martinelli-Fernandez has served as interim associate director of Western's Centennial Honors College and, with **Martin Dupuis**, (former interim director of the Honors College), co-designed Western's First Year Experience (FYE) initiative pilot program in the Honors College.

FYE, a program designed to assist students transitioning from high school to college, became a part of Western's general education curriculum in May 2005.

Martinelli-Fernandez has also served as co-director of Western's Program for the Study of Ethics and an executive board member of the International Society of Ethics Across the Curriculum. She earned her master's degree in social sciences and her Ph.D. in philosophy from the University of Chicago.

Board, from p.1

A \$35 increase in student health insurance fees (from \$294.85 to \$329.94 per half year and \$659.28 per full year), was approved by the Board and will go into effect Aug. 1.

Following an annual review of his performance, Western's board lauded the accomplishments and leadership of President **Goldfarb**. The board will review compensation for the president at the October meeting. Goldfarb's annual salary is \$270,000. For **further Board actions**, see the June 5 news release at [wiu.edu/news](http://wiu.edu/news).

## Team names unified; teams eliminated

Goldfarb also announced at the meeting that after a two-year deliberation, he reached a decision to unify the WIU athletic team names. Beginning Fall 2009, all Western Illinois athletics teams will be called the Leathernecks. The Board unanimously approved the decision.

Prior to the decision, Goldfarb met with coaches from Western women's and men's athletic teams, student-athletes, Western Athletic Club members and campus leadership groups. Input was also collected from alumni, members of the campus community and others through e-mail submissions and a web-based survey. The original proposal to unify the name was brought forward to Goldfarb by Vice President for Student Services **Garry Johnson** and Athletic Director and Assistant Vice President for Student Services **Tim Van Alstine** on behalf of requests they receive annually from women's-team coaches and players.

"I thoroughly reviewed and read every letter, survey and e-mail, and I listened to all of the constituency groups. This was not an easy decision, nor was this a task I took lightly," Goldfarb said. "I considered all points of view and felt it was in the best interest for our student-athletes in regards to equity and marketing to unify the athletic team names."

Currently, WIU women's teams are named Westerwinds, and men's teams are named Leathernecks.

Johnson and Van Alstine also announced at the meeting that the Department of Intercollegiate Athletics will eliminate its men's and women's swimming and diving programs in an effort to reduce annual operating expenses.

"This was a difficult decision made after much analysis and evaluation across campus," said Van Alstine.

For more information, visit the June 5 news release at [wiuathletics.com](http://wiuathletics.com).

Goldfarb, from p.1

First and foremost, I'd like to see the Performing Arts Center in Macomb and Quad Cities Riverfront Campus construction begin.

We are also preparing for our national re-accreditation and we must continue working on Western's fundraising campaign.

I've outlined a fairly intense agenda during these next two years, he added. This will allow the Board of Trustees and the campus community to start thinking about transition while we continue to work hard on the key issues confronting the University.

A national search for WIU's 11th president will begin during the 2009-2010 academic year.

I've had a long and wonderful career, Goldfarb said. I'm so appreciative of what everyone has done for me and my family at Western and previously at Illinois State.
