

Interdepartmental Science and Mathematics Seminar
Biology • Chemistry • Geology • Mathematics
Meteorology • Nursing • Physics

4 PM, Wednesday March 30th
Hosted by the Department of Mathematics
Morgan 208

Super-Resolved Microscopy: Fundamentals and Applications

Presented by: Dr. Kishor Kapale (Dept. of Physics)

Transfer Functions and Applications in Ecological Time Series Data

Presented by: Dr. Beth Hansen (Dept. of Mathematics)

This is the third of four seminars scheduled for Spring 2016 to provide a forum for WIU Science and Mathematics faculty to share their research in an effort to promote cross-discipline collaboration.

Remaining Seminar Schedule: Friday April 29th (Hosted by Physics)
