The Great Math Mystery

Is math invented by humans, or is it the language of the universe? We will be watching a documentary in an attempt to understand this question. Mario Livio and other mathematicians and scientists will follow math from Pythagoras to Einstein leading to the ultimate riddle: is math an invention, or a discovery?

As with all of our meetings, everyone is welcome, and there is free pizza. Feel free to join in!

If you have any questions, please contact math club president Jordan Hughes at jk-hughes2@wiu.edu
