Date:

My department has certain computer requirements because I am enrolled in

Course name & number

OR

Major/minor

I want to be considered for additional loan eligibility for the purchase of a computer. I have attached a receipt, lay-away slip, or price quote dated between July 1, 2023 and June 30, 2024 which contains the following items:

- my name
- date of purchase/quote
- name of the retailer
- an itemized list of hardware and software
- total cost of the computer

I understand the following:

- The budget increase will be based only on hardware and software required by my department for a course or a major/minor.
- I may have to apply for a private alternative loan or my parents may have to apply for a Parent PLUS loan.
- If eligible, loan funds will be applied to my university account.
- If I owe a balance on my university account, I may not receive a refund for computer costs.
- I understand I will be contacted through my WIU e-mail account after review is complete.
