

Living on Campus

If you are living on campus, there are many useful services and places available to you.

- As a new student, you will be living in one of Western's residence halls. The [University Housing](#) page has complete information on how to apply for housing, which halls are available for you, pictures, costs, etc. and guides you through the housing process. Also included on this page is a link to [Dining Services](#). WIU offers dining halls, a convenience store, food vendors in the University Union, and a coffee and cyber cafe on campus.
- The [University Union](#) provides programs, services, and facilities to foster student and community growth and success. The Union, located between the north and south campuses, is the community center of the University. Union services available include a [food court](#) and convenience store, meeting and banquet rooms, a [bookstore](#), [guest rooms](#), [check cashing and cashier services](#), and ATM machines. [Wireless internet](#) is available in all areas of the Union.
- The medical clinic, [Beu Health Center](#), enhances the educational process through assisting students in the modification or removal of health-related barriers to learning by providing appropriate medical services and collaborative programming. [*Please see information about mandatory health insurance here.](#)

- Even though all areas of the campus can be accessed by most pedestrians, [Go West Transit](#), a bus service, offers service around the WIU and Macomb communities for faster, easier transportation. This service is especially helpful during inclement weather. In addition, Go West offers paratransit within the Macomb City limits, to include the routes within the WIU campus streets.
- To keep our campus safe, Western Illinois University's [Office of Public Safety \(OPS\)](#) ensures the safety and security of students, faculty, staff and campus visitors, 24 hours a day, seven days a week. OPS works with others across the WIU campus, and within the local community, to provide a safe environment and to ensure a campus that is pleasant and secure.
